Re: 4186 Davison Rd. Burton, MI 48509
59-10-501-101 / C-2 Zoned

For: Special use to conduct a medical marijuana provisioning facility

Chris Sherman of Sterling Heights said if approved we would focus on security and ventilation systems. Not only would we like to bring the provisioning center to Burton, but other business as well. This would provide around 50 new jobs to the community. The name of the business will be something like, Genesee MMPC.

Jason Treichel, owner of Stone Specialist on Davison Road, said I am in favor of new business. I am concerned about the positive and negative attention it would bring to the area. My business is across the road and I bring out of town clientele into Burton. As the City of Burton is growing, whom are we attracting? I hope this will be considered.

Mrs. Abbey said we have had these type of facilities for the last eight years. Looking at these facilities, you wouldn't know what they were. We do not allow signage that would give away what it is. We do a good job on keeping our facilities looking like a business. This property has been for sale for a long time and in terrible shape. It used to be the old Dog House Lounge. An improvement would be good. I am not comfortable with approving their plan as it is presented today, because I have not had a chance to review it. He will still have to get State approval. He will still have to submit for his license separately for approval of that. The drawing he shows would be an improvement to the building and space. If they purchase the other two parcels, that would be even better. We recommend approval.

Mr. Johnson said with all the new facilities that are now in Burton, we really have not seen any crime issues. If they remodel the building and put up acceptable signage, I do not see a problem with it.

Mr. Gorang asked about security there and the hours of operation and the traffic flow in that area.

Mr. Treichel said we would have security guards in the daytime and at night. We have not had anyone do a traffic survey.

Ms. Abbey said as far as the hours I would recommend Monday through Saturday, 10 AM to 8 PM and Sunday 10 AM to 6 PM.

Mr. Smith stated this would bring in traffic. I think the store fronts will be renovated once people see this.

Mr. Johnson asked have you looked at our Master Plan at all and what influenced you to look at opening the business in Burton.

Mr. Sherman said it was the striving community and we have other businesses in the surrounding area.

H. BOARD DISCUSSION

1. Master Plan Update

Mrs. Abbey said at the last meeting we went over the Central Business District information and I am doing the finishing touches. It still needs to go to the City Attorney for approval. It will be before you at the next meeting. I think we are on the right tract to implement the plan as we wanted to.

2. Planning Commission By Laws

Mr. Johnson said he would like to hold off on any decisions until Mary Ann White gets back. She has some concerns regarding this. I am concerned about the audience participation time limit. I think this should be the same at all the meetings.

Mrs. Abbey said I don't think having a special workshop to go over the By-Laws is necessary. It is only five pages and we could discuss this at the meeting.

Mr. Burge said #3.7 in the By Laws, has to do with commission members voting and public hearings. There is a lot of information here that is not very clear.

Mrs. Abbey stated for this Planning Committee, you only have to have a majority of the vote of the members that are present. Zoning is different. If someone has a conflict of interest, they cannot vote and they need to leave the room while the voting is taking place. The Planning Commission representative on the Zoning Board of Appeals cannot vote on the same issue on both boards. So you your case this would mean, if Deb Walton voted on a matter at the Planning meeting she would not be able to vote on the same thing at the ZBA Meeting.

Mr. Gorang said section 7.5, where it talks about conducting site visits; we were going to say, "wearing proper identification badges".

Mrs. Walton said section 8.1, in the case of absence the person needs to let the Clerk's office or the Chairperson know as soon as possible. This will give the designee opportunity to review the issues before they sit in for that person.

Mr. Gorang asked about section 8.3 should say that resignation letters be given to the Mayor not the Chairperson on Council. A designee should be assigned. There is a due process for anyone that does not follow the By Laws. To remove someone from the board, this would have to go before Council. I will put a draft together and you can vote on it at the next meeting.

Mrs. Walton said she would like to set up a meeting for a class to go over these.

After discussion, it was decided to have a training session July 29, 2017 at 10 AM.

THE NEXT REGULARLY SCHEDULED MEETING WILL BE HELD ON TUESDAY, AUGUST 14, 2018 AT 5:00 PM.

Meeting was adjourned at 5:57 PM.

CITY OF BURTON
GENESEE COUNTY, MICHIGAN

ORDINANCE NO. 2018- -157.049

AN ORDINANCE TO AMEND CHAPTER 157, the
ZONING ORDINANCE, OF THE CODE OF
ORDINANCES OF THE CITY OF BURTON FOR THE
ADDITION OF A CENTRAL BUSINESS DISTRICT
OVERLAY

THE CITY OF BURTON ORDAINS:

SECTION I

Chapter 157.049 of the Code of Ordinances of the City of Burton shall be amended by the addition of the following:

§ 157.049 CENTRAL BUSINESS DISTRICT OVERLAY, CBD.

(A) *Statement of purpose.* The CBD, central business district is intended to promote development, to retain and create a vibrant and cohesive center for the City of Burton with a variety of quality places to work, live, shop, learn, recreate and be entertained. This district is intended to recognize and support the City of Burton central business district as the centerpiece of the City of Burton community.

(B) *Intent.* These special regulations are intended to assist with the implementation of goals and objectives contained in the City of Burton Downtown Development Authority (DDA) Strategic Vision Plan. Included in this plan are goals to promote development of a compact, walkable, mixed-use district, consisting of a variety of retail, entertainment, office, service, residential, cultural, recreation and municipal uses. To provide for the desired traditional downtown environment and accommodate the wide variety of permitted uses, this district includes specific design standards for site layout, setback continuity, building design, pedestrian amenities, parking arrangements, vehicular circulation and coordination of features between adjoining sites. One intent of this district is that buildings be placed close to the street, with parking in the side, or preferably, rear yard. Permitted uses shall be designed and arranged to minimize any adverse impact on street capacity or public services, and contribute to the overall image and function of the district. A mixture of uses within a building, such as retail on the ground floor and office or residential on upper floors is permitted. It is the further intent of this district to prohibit automotive related services and non-retail uses which tend to disrupt the continuity of the retail frontage.

(C) *Principal permitted and special uses* shall be in accordance with the following:

(1) All permitted and/or special uses allowed by the underlying zoning district (as designated on the zoning map) shall be permitted for that lot within the CBD. (For example, if the underlying zoning district is C-2, the uses permitted in C-2 are permitted for that lot).

(2) All uses shall meet the standards for the CBD district listed below in section 157.049 (D) and as set forth in the Appendix A, Schedule of Regulations. The Planning Commission shall encourage and allow for zero front lot line setbacks to promote the appearance of a traditional downtown.

(3) Any building fronting on Saginaw Street or Bristol Road and having commercial or office on the first floor of said street frontage may contain office or residential uses on upper stories when adequate off-street parking is provided. Any non-conforming or previously approved uses other than commercial or office would require special use approval to contain residential mixed uses.

(4) Multi-story single family attached or townhouse (row house) buildings may be permitted as Special Land Uses on lots that do not front along Saginaw Street or Bristol Road. Each dwelling shall comprise a single unit from the lowest floor to the highest floor of the building between common walls except that the Planning Commission may permit stacked units where the front building façade retains a traditional townhouse (row house) appearance.

(5) Open-Air markets, outdoor restaurants, bars or cafés located on private property, temporary or permanent. This section shall not include roadside stands or food trucks which are provided for in Chapter 111 or outdoor recreational events, which are provided for in Chapter 113.

(D) *Required Conditions.*

(1) All business, servicing or processing, except for off-street parking or loading, shall be conducted within a completely enclosed building, provided that public plazas, sidewalk sales and open air markets may be permitted as an accessory use upon approval as a special land use.

(2) Exterior walls facing public rights-of-way, customer parking areas and adjoining property that is zoned or used for residential purposes shall have a finished appearance, using the same materials as used on the front facade of the building. Wherever possible, meter boxes, waste receptacles and mechanical equipment should not be located in the side of the building when visible from public views or when facing property zoned or used as residential.

(3) Ornamental lighting consistent with the established lighting system in the Central Business District shall be provided along public street frontages. Except for ornamental fixtures, all lighting shall be downward directed sharp cut-off fixtures. Site, building and parking lot lighting shall be at a scale appropriate for the downtown and to prevent glare off-site.

(4) Whenever feasible parking shall be located in the side or rear yards, not in the front yard; however, parking in one front yard shall be permitted for corner lots.

(5) All garage doors, loading or service areas and waste receptacles shall be located in the rear yard of the lot and screened from view of any public street, adjacent residential zoning district or public property. Unless otherwise approved by the Planning Commission the screening shall consist of a fence consistent with the building, landscaping or a combination, as appropriate. The waste receptacles shall be screen in accordance with section 157.090 of this ordinance.

(6) The number of access points shall be the minimum on Saginaw Street to provide reasonable access. Access points shall be designed and located to minimize conflicts with traffic operations along the street and be placed as far from intersections as practical at a minimum of 30'. The Planning Commission shall encourage and allow access off local streets, whenever it is feasible. The Planning Commission may require the applicant to provide a traffic impact study prepared by a qualified traffic engineer to evaluate traffic circulation and access concerns.

(7) Parking shall be provided for all uses in accordance with the requirements of 157.111 except that the Planning Commission may reduce the amount of onsite parking required in the CBD by up to fifty percent (50%) in the following instances:

a) The parking requirement may be satisfied through shared parking with an adjacent use. All uses must be located within three hundred (300) feet of the shared parking with a copy of an executed shared parking agreement provided to the City. Where uses with different peak hour parking demands, such as a restaurant and office share the same parking lot, the total cumulative parking requirement for all uses may reduce by up to fifty percent (50%).

b) A mixed-use development that has uses with different peak hour parking demands, such as a restaurant in an office building, may reduce the total cumulative parking requirement for all uses by up to fifty percent (50%).

c) The parking requirement may be reduced by up to fifty percent (50%) where the applicant can demonstrate, based on supporting documentation provided by the applicant, the parking need for that particular use is less than required by this Ordinance.

d) Total parking requirements shall not be reduced by more than fifty percent (50%) even where a site satisfies more than one (1) of the above criteria.

(8) All lawn and landscaping shall be maintained at a minimum of 6", suggested height at 4".

(9) Require maintenance of approved landscaping areas as approved through the Site Plan Review Process.

(E) *Architectural conditions.* All new buildings, additions and significant exterior changes or renovations shall be found to be architecturally compatible with the intent of the Central Business District. In making such a determination, the following will be considered:

(1) The exterior finish material of all building facades visible from the public street, parking lot or adjacent residentially zoned land, exclusive of window areas, may consist of the following: brick, cut stone, field stone, cast stone, dimensional wood with an opaque stain, fiberglass reinforced concrete, polymer plastic (fypon), or EIFS. Exterior Insulation and Finishing Systems (EIFS) materials shall not be the primary building material. The Planning Commission may permit other materials for facades that are consistent with adjoining land uses.

(2) Blank walls shall not face a public street. Walls facing a public street shall include windows and architectural features customarily found on the front facade of a building, such as awnings, cornice work, edge detailing or other decorative finish materials. A usable public building entrance shall be provided at the front of the building. Wall massing shall be broken up with vertical pilasters or other architectural elements to reduce scale.

(3) Colors shall be consistent with the majority of the established buildings. Stark or bold colors, white and similar "non-traditional" downtown colors are not permitted.

(4) Facades may be supplemented by awnings which shall be straight sheds or made of an opaque material; translucent awnings shall not be permitted along the front building line.

(5) Sites shall be designed at a pedestrian scale with relationship to the street and sidewalk. Convenient and safe pedestrian access shall be provided between the public sidewalk and the building entrance. Bicycle racks may be provided for uses expected to attract bicyclists, such as fast food restaurants, ice cream parlors and convenience food stores.

(6) Rear or side entrances should be provided where parking is on the side or rear of the building.

(7) Building height may be increased to a maximum of fifty (50) feet for a mixed use building with retail/office in the first floor and office and/or residential use on the floors above the first floor. Parking structures incorporated into the design of a mixed use building may also warrant the aforementioned increase in building height.

(8) Building design, facades and materials shall be consistent and adopted by the Planning Commission.

(F) For buildings proposed for expansion or renovation that existed prior to the effective date of this ordinance, the Planning Commission shall determine the extent of compliance based on the existing building and site arrangement, the extent of the changes proposed and the site design elements found to be most in need of modification.

SECTION II

All other provisions of this Chapter shall be and are hereby ratified.

SECTION III

The violation of the terms of this Ordinance shall be a municipal civil infraction.

SECTION IV

If any section, part, or provision of this Ordinance is declared unconstitutional or invalid by a court of competent jurisdiction, then it is expressly provided and it is the intention of the City Council in passing this Ordinance that its parts shall be severable and all other parts of this Ordinance shall not be affected thereby and they shall remain in full force and effect.

SECTION V

This Ordinance, or a synopsis thereof, shall be published in a newspaper of general circulation within the City of Burton, Genesee County, Michigan, and shall become effective 30 days after publication.

SECTION VI

A copy of this Ordinance may be inspected at the City Hall, 4303 S. Center Road, Burton, Michigan, during regular business hours.
