Burton, MI 48529

Re: Lot 33, 34, 35, 36, 37 & 38
Supervisor's Plat #12, Sect. 28
C-2 Zoned. 236 ft. on E. Atherton
and 174 ft. on Clarice.

For: New Construction for a Plumbing
Contractor's Showroom.

Chris Kenney, 10042 E. Maple Rd., Davison, MI 48423, presented his site plan and permit from the DNR to the Board.

Mr. Strasser said he spoke with the DNR and they indicated this property is in the flood plain area. The plans for the grade of the property would have to be presented prior to the issuance of the building permit.

Mr. Kenney said timing is very important as the property needs to be cleared and the determination of the grade of the property would be made after the clearing is completed. Pete's Plumbing and Heating has been in the present building since 1968 and we are going into a third generation of running the business.

Moved by Howlett, supported by White to approve Site Plan Review #91-31, contingent upon DPW recommendations and show Mr. Strasser the plans for grading for the flood plain problem after the property is cleared. Motion carried 7-0.

G. SITE PLAN REVIEWS:

For: Conversion of residential structure
to an office.

Mr. Myers was present and said he has no problems with any of the DPW requirements.

Mrs. Howlett said she would like to include an additional 30 foot privacy fence on the west property line.

Mr. Myers said he has no problems with installing a fence.

Moved by Bertram, supported by Howlett to approve Site Plan Review #91-37, contingent upon DPW recommendations and additional 30 feet of fencing along the West property line. Motion carried 7-0.

2. SPR #91-39

By: Roger W. Engstrom
600 Maple Leaf Rd.
Lapeer, MI 48446

Re: 1184 S. Belsay Rd.
Lots 31-32 Cardinal Gardens
Section 14
C-2 & R-0 Zoned

For: New Construction for Jim Mathis
Shoe Store.

Mr. Engstrom was present along with Architect, Rick Swiehart. The revised site plan shows a water and sewer easement on the North side of the property.

Mr. Berry asked what type of construction this would be.

Mr. Swiehart said a wood structure with a pitched roof. Half of the building will be a shoe store and the other half will be vacant for another tenant.

Mr. Strasser said the reason the City is requesting a 20 foot utility easement, is that a building could be constructed on the west side of the property by an individual owner. The property goes back 1200 feet and the Water and Sewer Superintendent thinks a 20 foot easement would be adequate.

Moved by Howlett, supported by Smiley to approve Site Plan Review #91-39.
Motion carried 7-0.
