ATTENTION APPLICANT:

In order to prove you are entitled to a variance, you should be prepared to show how your property meets the conditions listed:

1. The difficulty must be unique to your property and not generally shared by others in the same zoning district, and would constitute a hardship.
2. The variance will not adversely affect the public health, safety and welfare, or be contrary to the spirit and intent of the Ordinance.

The burden of demonstrating that the above conditions exist on your property falls on you, the applicant. The Zoning Board of Appeals will not argue or present your case for you.

Attachment: Back up 15-26 (1877 : ZBA #15-26)

I am requesting this variance to construct an "in-law" single story dwelling on my property for my 68 year old handicapped sister. At age 15, Carolyn was struck by a car which left her with a closed head injury, limp, and minor paralysis on her left side. Her closed head injury has resulted in short term memory loss. Carolyn currently utilizes a cane for stability but will soon be required to use a walker. Until approximately 3 years ago, Carolyn lived with and cared for our mother, who passed away in February, 2013. Carolyn does well with her activities of daily living as routines are established. While she very much wants to continue to live on her own, I feel that it is in her best interest to have more supervised surroundings. We have discussed her living in an assisted living facility, but Carolyn is vehemently opposed to this as she wants to continue to live independently. I have concerns that she would have a more rapid decline if she were living in an assisted living as she would be doing less for herself. Carolyn has never been able to drive, so I take her to all of her appointments, social events as well as spend time with her regularly doing her grocery shopping, personal shopping, eating out and general socialization. I also manage all of her finances and maintenance on her current condo. I will continue these responsibilities while she lives closer to me. My current home is older, very small and not equipped with the room that she will require managing a walker (and possibly a wheel chair in future years). The dwelling that we are looking to build for her will be ADA compliant and a comfortable and safe home for Carolyn. It will enable me to check on her more regularly while offering her independence. We fully intend to install an intercom type communication device as well as home security alarm and cameras.

I am confident that with using both Creekwood Architecture Inc. and Hyatt Construction, we will have an addition to the property that is both esthetically pleasing and fits within the current design of the existing home.

In closing, let me state that I am all Carolyn has for a caregiver. I am the most familiar with her abilities, disabilities and limitations and have only ever wanted what was best for her. I truly believe that with Carolyn living with me on my property, will be the safest and overall best living situation for her.

Sincerely,

Denise Dostilio

I am a medical marijuana grower that provides a specific type
of marijuana that provides relief for critically ill autoimmune disease,
eye and ~~neuro~~ neurocellular degeneration and digestive problems.
This building would provide me a clean space to provide people that
have severe reactions to any impurities in their medicine. My current
growing situation does not allow me the necessary environment
to treat such sensitive people in an completely organic way
a living environment is not a place to also make medicine.
